

Profile: Full Stack Developer (3-6 Months Internship/Probation Period)

ExMyB is India's first dedicated B2B services platform. We are on a mission to make services procurement quicker, transparent and hassle-free. Know more: www.exmyb.com

We are looking for a person to **join immediately** who is passionate about product development.

- Location: Gurgaon **(In-Office Only)**

How To Apply:

The students need to send a pdf of the completed task. Details of the task:

There is an e-commerce app (consisting of customers, suppliers, orders, payment, cart, categories, tags, affiliate program and much more).

- You have to design the database schema of the above application. You can use online tool (lucidchart.com or any other) for creating the schema.

Note: We will be having products off different categories (ex: skin care, electronic devices).

- Also mention how can we scale our database when we have different products of different types.
- Also specify how can we make our search engine efficient enough for fetching product from the database.
- Mention which technologies we can use for designing our database and search engine

Requirements

- Students from all streams and courses are eligible.
- Students from all years are eligible.
- Demonstrates initiative-boldness and flexibility.

Incentives

- Certificate Of Completion
 - Stipend 7500-15000 INR
 - Letter Of Recommendation
 - **PPO will be extended to all deserving candidates in the range of 6 - 10 LPA**
- The students can send the completed task in PDF format to: [**tech@exmyb.com**](mailto:tech@exmyb.com)
